

IBM WATSON USING IOT PLATFORM

Team id:PNT2022TMID32243

The screenshot displays the IBM Cloud console interface. The top navigation bar includes the IBM logo, account information, and a search bar. The main content area is titled "Watson Studio-i4" and shows the service is "Active". A "Manage" tab is selected, displaying a "Plan" section. The central part of the page features a large graphic of a 3D cube with a blue base and a purple top, representing the Watson Studio architecture. Text describes Watson Studio as a core service in Cloud Pak for Data, used for building, deploying, and managing AI models. A blue button labeled "Launch in IBM Cloud Pak for Data" is visible. On the right, a "Details" panel provides additional information: "Watson Studio democratizes data science and AI to drive innovation in your business. With a suite of tools for all skill levels, everyone can collaborate to prepare, analyze, and model data. You can write Python or R code in notebooks, visually code on a graphical canvas, or automatically build models." It also lists the "Offering" as "Watson Studio", the "Created by" as "732119205003@smarterintell.com", the "Resource group" as "Default", and the "Status" as "Active". The bottom of the screen shows a Windows taskbar with various application icons and the system clock indicating 14:51 on 27-10-2022.
